

STATEMENT OF PURPOSE

RS21019

This legislation would provide sportsmen access to private land in exchange for the ability of landowners to sell special landowner tags. The legislation would change public policy, which the Fish and Game Commission would establish by rule, a program to provide special tags to hunt antelope, elk or deer in designated units. To be awarded a tag, the private landowner would allow hunters reasonable access.

FISCAL NOTE

There is no fiscal impact to the general fund.
